Storage & Handling

To maintain a shelf life of one year, store materials at a temperature of 72°F with a relative humidity of 50%. Allow material to stabilize to room/printing conditions for 24 hours prior to use.

Installing

This product can be grommeted for short-term indoor banner applications. Metal grommets should be inserted to penetrate 2-4 layers of materials for increased strength and durability. Standard high tack banner tape can be used for added strength and reinforcement. Sewing the materials can scratch or pick off coating. If sewing is desired, it is recommended that the material be double stitched hem side up with a maximum of five stitches per inch. Half moon wind slits are recommended for banners that are 10 feet or larger. Corner reinforcements, professional installer and proper installation tools are strongly recommended.

Printer Compatibility

Compatible with most Solvent, Eco-Solvent, Latex and UV curable inkjet printers.
